

Trends in ePrescribing Regulation & Legislation

Trends Impacting Near-Term
Product Road Maps

September 17, 2019

GoToWebinar Logistics

The image shows a screenshot of the GoToWebinar interface. On the left is a vertical sidebar with four icons: a back arrow (circled in red), a phone handset, a document, and a hand with a green arrow. In the center, a red box titled "Join the audio conference" contains the text: "Dial in using your phone or select Computer audio to use your mic & speakers." with a red arrow pointing right. To the right is a window titled "Audio" with a menu bar "File View Help". It shows two options: "Computer audio" (unselected) and "Phone call" (selected). Below these are the following details:
Toll-free: 1 877 309 2074
Long distance: +1 (213) 929-4221
Access Code: 487-383-574 #
Audio PIN: 93 #
A link "Problem dialing in?" is also present. At the bottom of the window, a "Questions" button is circled in red. Below the "Questions" button, it says "Webinar Now" and "Webinar ID: 156-278-715". The GoToWebinar logo is at the bottom right of the window.

Agenda

- ✓ Understand How Prescribing is Regulated
 - ✓ Major Federal Legislation and Impacts
 - ✓ Key State Legislative Activities
 - ✓ Overview of Long-Term, Post-Acute Care Regulations
 - ✓ Key Trends Impacting EHR Design
 - ✓ What does the future hold?
- 

Poll Question

How well do you stay on top of state regulations?

- ☐ I do a great job staying on top of state regulations on my own
- ☐ I sort of stay on top of things
- ☐ I have a team that monitors state regulations
- ☐ I wait until providers tell me of changes
- ☐ I purchase a service that helps me stay on top of things

Center Account Manager

Governance of Prescribing Processes

- **States** govern prescriptions with many agencies, statutes and rules
- DEA only governs controlled substance prescriptions

Prescriber challenges

Because there are so many variables, it's challenging for prescribers to keep up to date on the state and federal mandates

- Providers tend to interpret laws themselves, or ask a friend

Calls come to the EHR vendor after a call, letter or visit from the pharmacy board

Noncompliant ePrescribing Risks

Dissatisfied customers
and reduced confidence
in your solution

Lost opportunity to use
development staff to
create new value for
customers

Staff time expense – help
desk calls, routine software
updates, emergency “hot
fixes”

*Stakes are getting higher as new
mandates have significant impact on EHRs and
prescribers due to penalties for noncompliance*

Estimated Cost of Missed Regulatory Changes

Based on costs incurred by representative mid-size EHR company

Help Desk Calls

\$18,000

- 1 call/month for each customer
- 1% (5) are related to missed regulatory issues
- Each regulatory call requires 3 hours of staff time for call time, triage and research

Hot Fixes

\$50,000

Each hot fix to address major missed regulatory changes takes *5 hours per customer* and involves:

- Product Management Team
- Development Team
- Q/A
- Distribution
- Installation

Intangible Costs

\$\$\$

Cannot be quantified

- **Customer Satisfaction:** Physicians are legally liable for their prescriptions. If their software is not current, vendors risk customer dissatisfaction and possible loss
- **Opportunity Cost for Hot Fixes:** EHR staff not involved in hot fixes can allocate their time to other essential, revenue-generating work

Up-to-Date Compliant ePrescribing Benefits

Proactive vs.
reactive

Improved brand
reputation

Higher degree of
customer
confidence

Eliminate the last minute
scramble to meet
unexpected regulatory
requirements

*Incorporate regulatory
changes as part of normal product
development*

Poll Question

In the last 2 years, has your company had to roll out a patch or hot fix in order to comply with an enacted regulation or rule?

☐ Yes

☐ No

Traditional Regulatory Trends Affecting EHRs

There are 485+ federal and state requirements that impact EHR prescribing compliance

PRESCRIBING

100+

Who can
prescribe what?

FORMATTING

DELIVERY

85

How does it get
there?

Federal Legislation Highlights

ENACTED

H.R. .6, SUPPORT for Patients and Communities Act

- Effective **1/1/2021**
- Mandates EPCS and ePA for Part D covered drugs

CMS-4180-F Modernizing Part D and Medicare Advantage To Lower Drug Prices and Reduce Out-of-Pocket Expenses

- Effective **1/1/2020 and 1/1/2021**
- Final rule requires use of the real-time benefit check for Part D Sponsors by 1/1/2021

PROPOSED

CMS 4189-P Medicare Program; Secure Electronic Prior Authorization for Medicare Part D

- If finalized, will require ePA, based on the NCPDP SCRIPT 20170701, beginning on **1/1/2021**

PROPOSED

21st Century Cures Act: Interoperability, Information Blocking, ONC Health IT Certification (ONC Cures Act)

- Requires use of APIs, FHIR and Standards for health IT certification

CMS-9115-P CMS Interoperability and Patient Access Proposed Rule

- Comments through early June
- Requires payers to share claims data through APIs and support electronic exchange of data for transitions of care

CMS-1718-P FY 2020 SNF Payment & Policy Changes

- Focused on meaningful use quality measures

State Action (As of August 2019)

ELECTRONIC PRESCRIBING of CONTROLLED SUBSTANCES (EPCS)

28 
states have current or pending
EPCS LEGISLATION

ELECTRONIC PRIOR AUTHORIZATION

32 
states have current or pending
ePA LEGISLATION

14 require support for ePA transaction

15 specify NCPDP standard

PRESCRIPTION DRUG MONITORING (PDMP)

44 
states require prescribers access their PDMP before prescribing

CONTROLLED SUBSTANCES

Some states are sponsoring or requiring access via EHRs and others are sponsoring access via their HIE

44 states have controlled substance (CS)
SCHEDULE VARIANCES

States are ramping up on rules governing controlled substance prescribing including new limits on prescribing e.g. days' supply maximums; limits by prescriber type

37 states have
CS LIMITATIONS

States are requiring additional data, such as diagnosis, on the prescription

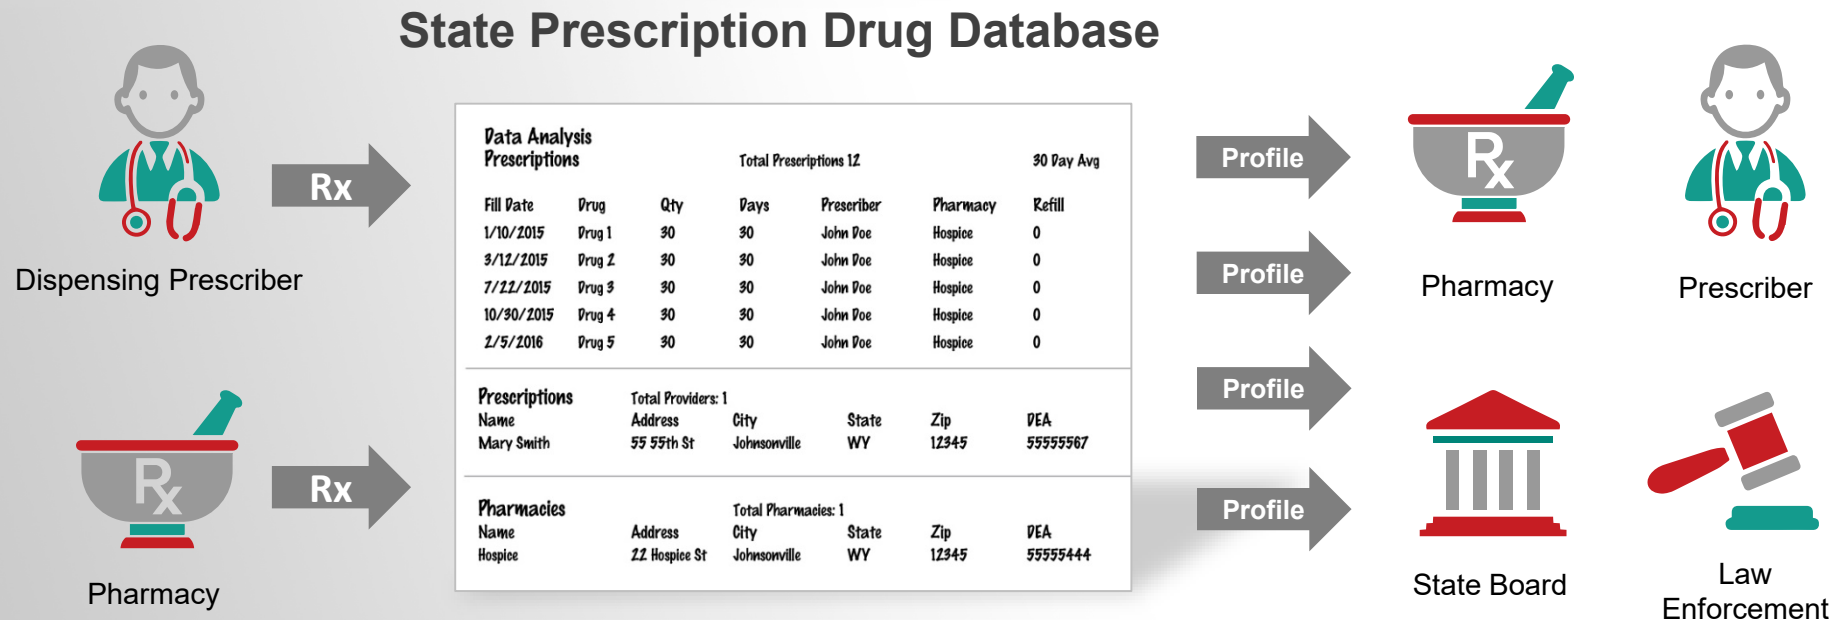

OPIOID CRISIS

State Action: Technology Solution

Prescription Drug Monitoring Programs

- State-run databases of dispensing records for Controlled Substances
 - Pharmacies and **dispensing prescribers** submit records
- Historically, PDMP utilization has been **optional** for clinicians

Challenge for compliance is clinicians exiting EHR workflow to access web-based PDMP

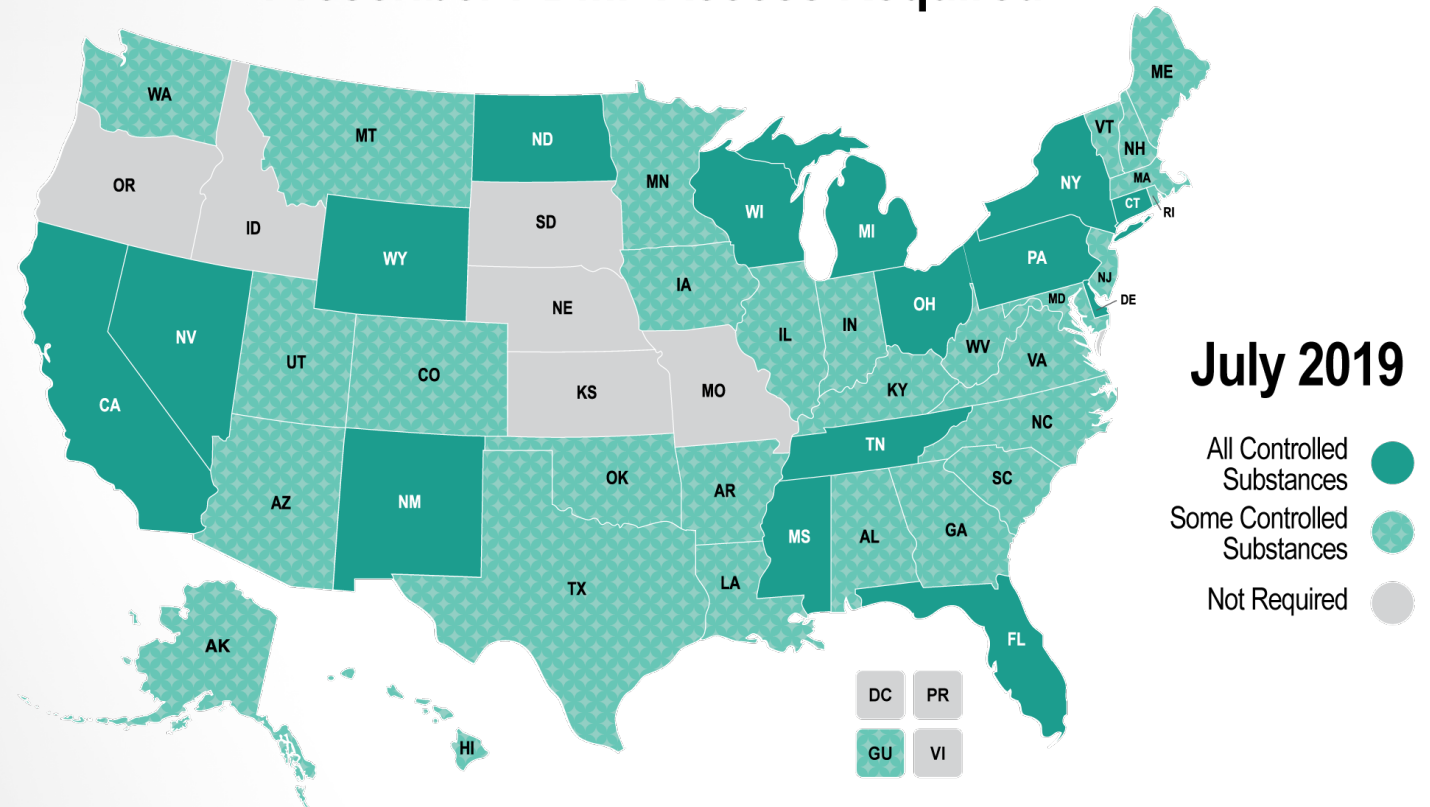

Regulatory Trend: States Addressing PDMP EHR Workflow Integration

44 states require PDMP access prior to prescribing of some or all controlled substances.

To improve access, states are requiring **PDMP Integration** through EHRs and/or HIEs supporting

- Allowing data sharing with EHRs
- Encouraging integration into prescriber workflow
- Interface from EHR to PDMP required
- Certification that EHR displays PDMP data in prominent manner required
- Documentation of PDMP review in Medical Record

Prescriber PDMP Access Required

Regulatory Trend: Pharmacy Electronic Prior Authorization

Rx ePA specified in 32 states

- 14 Require/mandate payers to support ePA
- 15 specify NCPDP standard

Only NJ, IA and IL have pending ePA bills now

Pharmacy ePrior Authorization Laws

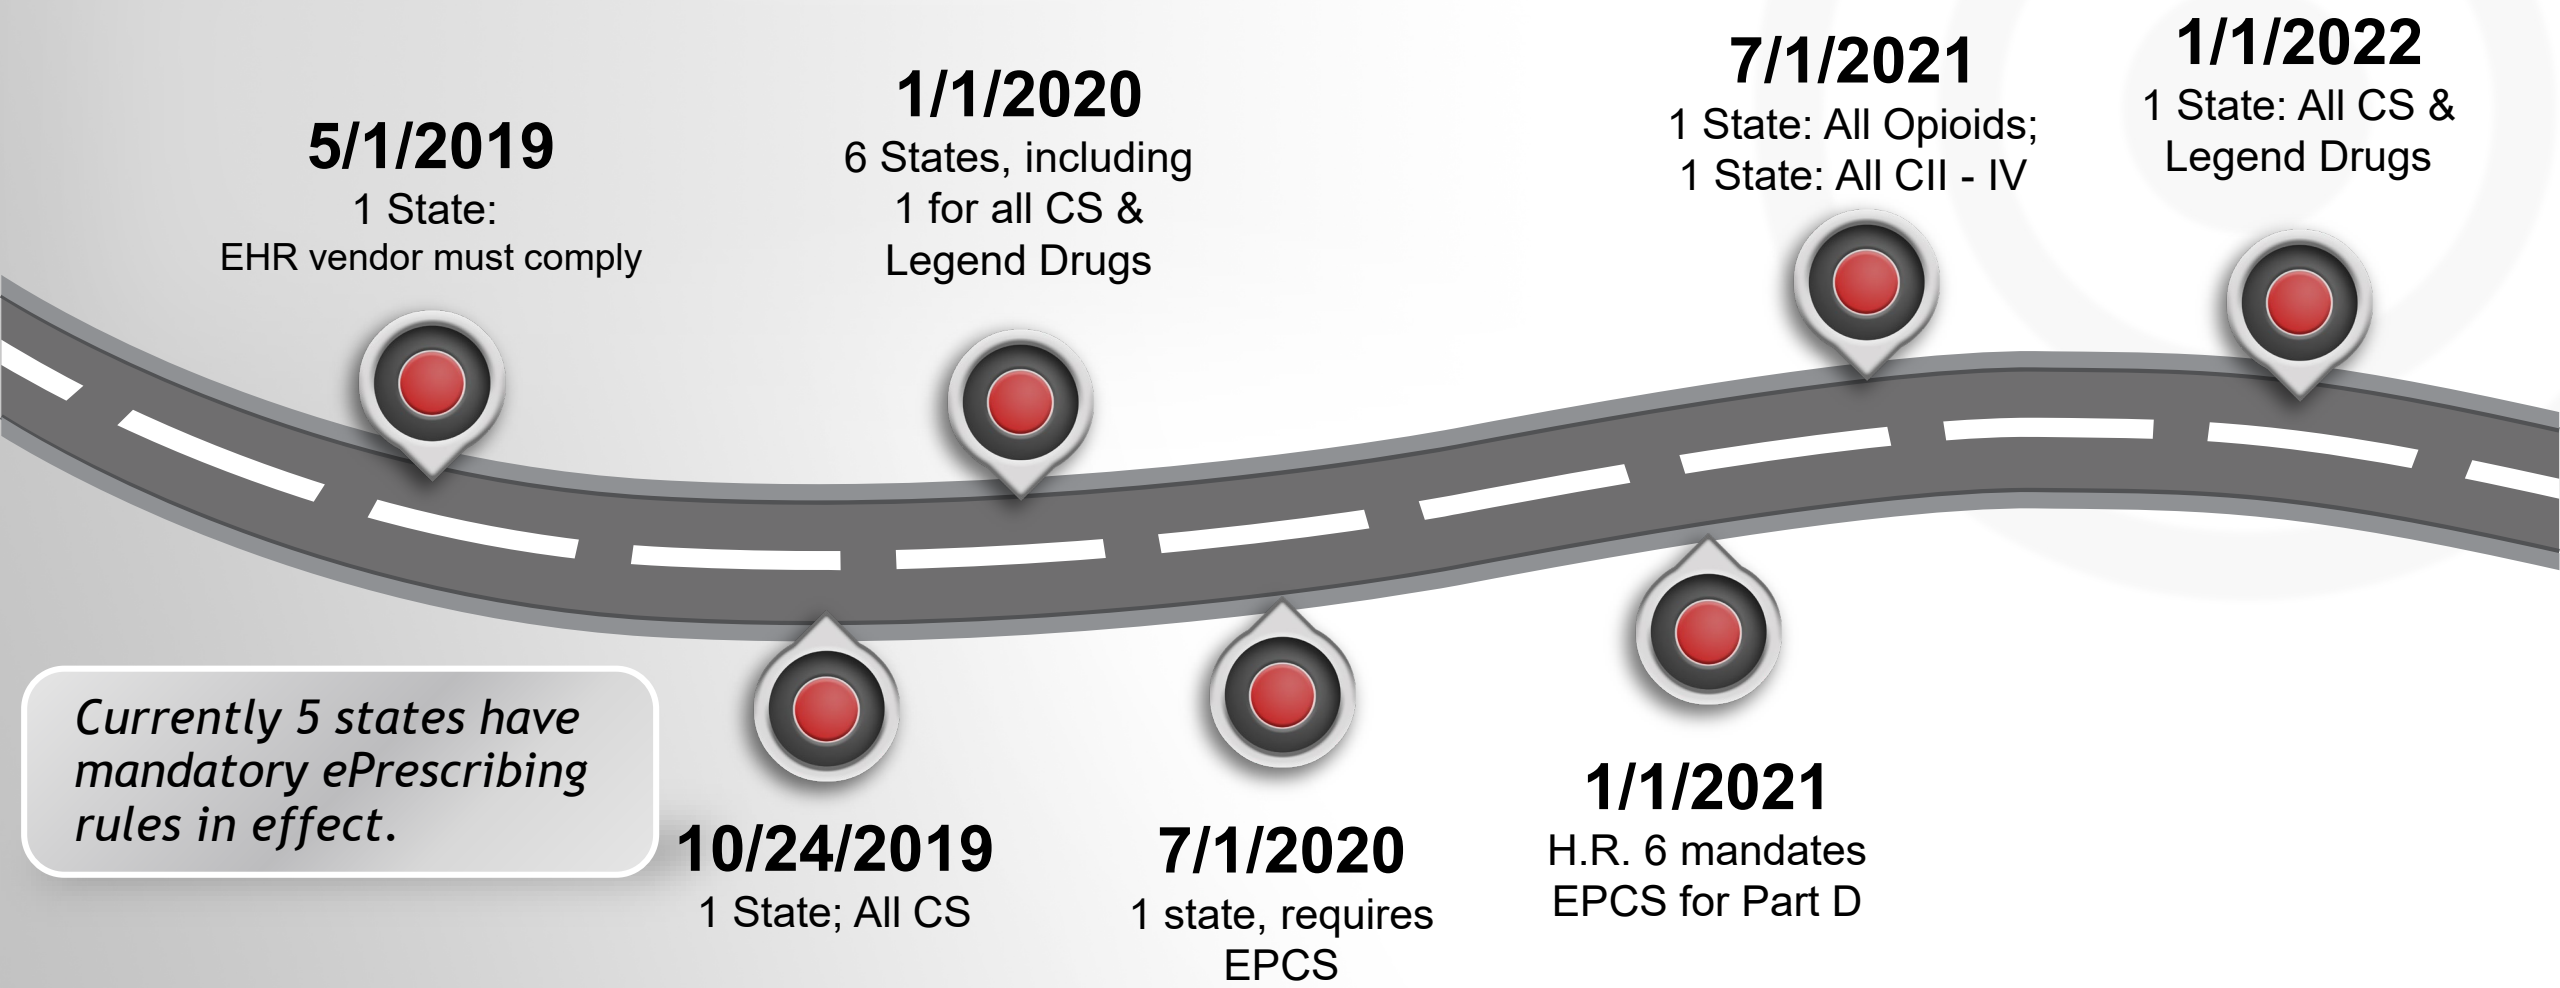

© 2019 by Point-of-Care Partners, LLC. All rights reserved. Revised July 2019.

Medical Prior Authorization Laws

Upcoming State and Federal Deadlines: Mandatory ePrescribing

EHR Impacts:

Each Trend Has An Impact On EHR Design

- Mandated EPCS
- Mandated PDMP
- Mandated ePA

- SCRIPT 2017071 – January 1, 2020
- Real-Time Pharmacy Benefit Check
- RxChange
- RxFill

EHR Value

Poll Question

Would your organization be affected if existing exemptions for non-hospital care settings such as long-term post-acute care environments if they were rescinded?

☐ Yes

☐ No

Long-Term, Post-Acute Care

Highlights from POCP's LTPAC State Navigator issued in July 2019

- Exceptions and exemptions for long-term, post-acute care environments:
 - Prescription Drug Monitoring Programs
 - Some states do not require controlled substance prescriptions for residents of nursing homes to be reported to the PDMP
 - Electronic Prescribing of Controlled Substances
 - CS Limitations
 - Hospice patients and those with terminal illnesses have relaxed rules on prescribing and dispensing opioid quantities and partial fills
 - Prescribing Authority

POCP is monitoring and documenting wherever there are LTPAC deviations and developments at the NCPDP LTPAC Work Group.

What's Next?

Ongoing whirlwind of legislation, state and federal

- ePrescribing & ePA mandates
- Stronger PDMPs with mandated utilization
- Restrictions on opioid prescriptions
- Opioid and Benzodiazepines coadministration

Interoperability

- PDMP
- Real Time Benefit Inquiry
- 30 day medication reconciliation (Da Vinci Project)
- Medication reconciliation in transitions of care

Specialty Medication prescribing increases

ePrior Authorization gains traction

Trending

- Artificial Intelligence (AI)
- ePrescribing in Long Term Care & Post Acute Care
- Privacy & Security

Conclusions

- Prescribers are dependent upon their EHR vendors to proactively support regulatory requirements
- States will continue to regulate in different ways than Federal requirements
- EHR compliance in a rapidly changing regulatory environment is critical
- Anticipating regulatory impact enables concise product planning to enable cost effective EHR enhancements

Persistent Monitoring Ensures Compliance

ePrescribing solutions providers must diligently monitor legislative activities at state and federal levels to avoid non-compliance risks

Persistent Monitoring Ensures Compliance
