

A Changing HIT Landscape to Support Population Health Management

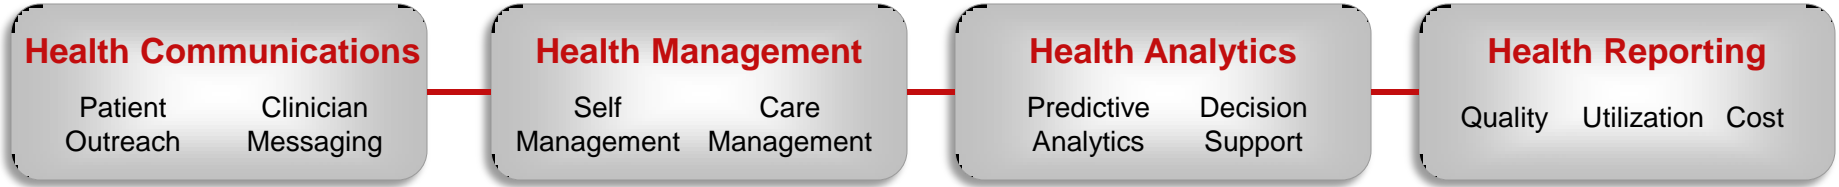

Tony Schueth

POINT-OF-CARE PARTNERS

Health IT Management Consultants

Health IT Ecosystem for Population Health Management

Judy Hanover, IDC Analyst

“[Healthcare organizations] are pulling away from an EHR application-centric focus and looking at the broader IT ecosystem”

“The mere fact that you start defining populations is a real mind-set change for physicians.”

James Sams, M.D.
Medical Director,
Piedmont Healthcare
